

INDIGENOUS MEN'S  
**HEALING CENTRE**  
OF NIAGARA

# INDIGENOUS MEN'S HEALING CENTRE OF NIAGARA

## PROJECT OVERVIEW

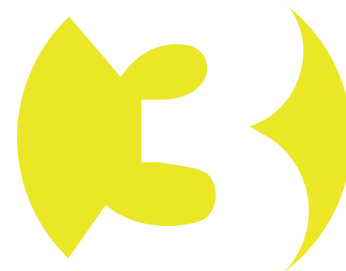

With the vision of a Healing center for Indigenous men in Niagara, our Leadership Niagara team assisted in the development of an introductory business plan for a new non-profit organization. An environmental scan was created around key areas of the project including trauma informed health resources, immediate and intermediate housing, justice support and employment training. Our group was immersed in research, both historical and cultural, while building relationships with stakeholders in the community to help identify key activities and resources to support the mission of the Centre.

We identified a greater need to understand the challenges facing the indigenous community and the need to immerse ourselves in history and culture.

By participating in this project we have seen first-hand how bridging relationships creates action.

It was great to meet others within the community who are excited about the vision of the Indigenous Men's Healing Centre of Niagara
